Operating Rules of Securities Market of the Cambodia Securities Exchange

Chapter I General Provisions

Article 1.- Purpose

The purpose of the Operating Rules of Securities Market is to prescribe the matters necessary for the trading of securities at the Cambodia Securities Exchange (hereinafter written as “the CSX”) granted the approval in accordance with the Law on the Issuance and Trading of Non-Government Securities and relevant regulations.

Article 2 New (One).-Definitions

The terms used in these rules are defined in this article and in the glossary of the annex of the Law on the Issuance and Trading of Non-Government Securities and the Anukret on the Implementation of Law on the Issuance and Trading of Non-Government Securities and relevant regulations.

-“**Member**” shall refer to the securities firm, which obtains license from the Securities and Exchange Commission of Cambodia (hereinafter written as “the SECC”), and which is the member of the Operator of Securities Market, of the Operator of Securities Clearing and Settlement Facility and of the Operator of Securities Depository and has rights to use the trading system and other computer system of the CSX.

-“**Order**” shall refer to the order for purchase or sale of securities by a member for trading at the CSX.

-“**Opening price**” shall refer to the first traded price of securities on each trading day at the CSX .

-“**Closing price**” shall refer to the last traded price before the closing of the trading session on each trading day, including the special quotation, or base price in the case of no trading until market closing time and no special quotation.

- "**Special quotation**" shall refer to, in cases of the issues that are not executed until the market closing time, the "Best offer" in case where offer price is lower than the base price or IPO Price in the case of trading initially listed issue, or the "Best bid" in case where bid price is higher than the base price or IPO Price in the case of trading initially listed issue.

- "**IPO Price**" shall refer to the issue price as determined in the disclosure document registered for the first time at the SECC.

- "**Customer account transaction**" shall refer to the buying or selling of securities upon receiving a trade entrustment from a customer.

- "**Own account transaction**" shall refer to the buying or selling of securities for the member's own account.

- "**Expected Price**" shall refer to the expected execution price resulting from the continuous matching of orders during the trading hours of single price auction.

- "**Expected Volume**" shall refer to the aggregated quantity of equity securities matched at the expected price.

- "**CSX computer system**" shall refer to the computer system operated by the CSX for the purpose of intermediating securities transaction.

- "**Member computer system**" shall refer to the computer system of a member, which is permitted to transmit the orders to the CSX computer system.

- "**Abnormal trades**" shall refer to the trades in which the price or trading volume of securities fluctuates abnormally in the Market.

- "**Unfair trading**" shall refer to the trades that change market prices artificially by unfair means such as using undisclosed information, insider information, market manipulation, or dissemination of the market quotation information.

- "**Market surveillance**" shall refer to the monitoring and analyzing the transactions of securities in the market, the status of orders and quotations for such transactions or the announcements related to disclosure document, rumors, news reports, etc.

Article 3.-Types of Securities to Be Traded

Equity securities shall be permitted for trading at the CSX by complying with these Operating Rules.

The securities transactions among the members shall be intermediated by the CSX.

Article 4.-Validity of Orders

An order shall be valid from the time it is received by the CSX trading system to the time it is executed during the trading session of the same day.

Notwithstanding Para.1, the validity of an order shall be suspended when trading of a specific issue is suspended during the trading hours.

Article 5 New.-Correction or Cancellation of a Submitted Order

The member may correct or cancel the price or quantity of a submitted order. The correction or cancellation of an order shall be made only if the concerned order has not yet been executed.

Chapter II Equity Securities Market

Article 6 New (One).-Trading Hours

The trading hours shall be from 8:00am to 11:30am and shall be divided into sessions based on auction method as follows:

1. Trading session using single-price auction: opening session shall be from 08:00am to 09:00am where trading shall be done at 09:00am, and closing session shall be from 11:00am to 11:30am where trading shall be done at 11:30am.
2. Trading session using multiple-price auction: continuous session shall be from 09:00am to 11:00am where trading shall be done whenever matchable.

Article 7.-Trading Days

Trading days shall be from Monday to Friday, except public holidays.

Article 8.-Order Procedures

In case where a member places an order to the CSX, the member shall conduct the following procedures:

- 1- Check for the available cash or securities in order to ensure the settlement or trading related to the concerned order;
- 2- Identify the detail order information as prescribed in the article 9; and
- 3- Place the order through the CSX system.

Article 9.- Detailed Order Information

The orders placed into the CSX trading system by the member, shall include each of the following details:

- 1- Issue name;
- 2- Quantity;
- 3- Price;
- 4- Classification for bid or offer orders;
- 5- Classification for customer account transaction or own account transaction;
- 6- Member's ID number;
- 7- Investor's ID number;
- 8- Order number;
- 9- Account number;
- 10- In case of the orders for cancellation or correction, the classification thereof and original order number;
- 11- Investor classification code; and
- 12- In case of foreign investors, the nationality code and investor classification code.

Article 10 New.- Order Unit, Tick size, and Trading Unit

The order unit for equity securities shall be 01 (one) share.

The tick size shall be determined as the following:

- 1- KHR 10: Issues with the price per share less than KHR 4,000;
- 2- KHR 20: Issues with the price per share equal to or higher than KHR 4,000, but less than KHR 20,000;
- 3- KHR 50: Issues with the price per share equal to or higher than KHR 20,000, but less than KHR 40,000;
- 4- KHR 100: Issues with the price per share equal to or higher than KHR 40,000, but less than KHR 100,000;

5- KHR 200: Issues with the price per share equal to or higher than KHR 100,000, but less than KHR 200,000;

6- KHR 500: Issues with the price per share equal to or higher than KHR 200,000, but less than KHR 400,000; and

7- KHR 1,000: Issues with the price per share equal to or higher than KHR400, 000.

The minimum trading unit for equity securities per transaction shall be 1 (one) share.

Article 11 New.- Base Price

The base price of equity securities, unless otherwise determined by the SECC, shall be determined as the following items:

1- In case of issues other than those mentioned in Items 2 through 5, it shall be the closing price of the previous trading day;

2- In case of initially listed issues, the price determined pursuant to the article 16 of these rules;

3- In case of the issues undergone ex-dividend (equity securities dividend), the price obtained using the following formula:

Total of market capitalization before dividend / Number of equity securities after dividend

N.B.: Total of market capitalization before dividend = Closing price x Number of equity securities before dividend

4- In case of the issues undergone ex-rights, the price obtained using the following formula:

[Total of market capitalization before capital increase + (Issuing price of equity securities x Number of equity securities additionally allocated to shareholders)] / Number of equity securities after capital increase

5- In case of the issues undergone split off (Split, merge and capital reduction), the price obtained using the following formula:

Closing price of the previous day x Split ratio

Split ratio = Number of equity securities before split / Number of equity securities after split

The price pursuant to Para.1 shall, when they are less than the price unit, be rounded up to the price unit.

Article 12 New.- Daily Price Change Limit

The daily price change limit shall be equal to the amount calculated by adding or subtracting 5% of the base price, and the amounts obtained less than the price unit of the base price shall be down. However, in cases where the base price is less than KHR 200, the daily price change limit shall be KHR 10.

Notwithstanding Para.1, no daily price change limit shall be set for the issues scheduled to be delisted, which are permitted to be traded for a fixed period of time before delisting.

Notwithstanding Para. 1 and Para. 2, upon receiving an approval from the SECC's Director General, the CSX may apply different daily price change limits to each of the following cases where:

1- an issue has been relisted;

2- the trading of an issue has been resumed after a prolonged trade suspension; and

3- the CSX deems that the application of the price change limit is obviously difficult.

Article 13 New (One).-Principle of Auction

All trades shall be executed through a single-price auction or multiple-price auction.

Notwithstanding the use of multiple-price auction during the trading hours from 09:00am to 11:00am as stipulated in point 2 of Article 6 New (One), the below prices shall be determined by single-price auction:

- 1- the opening price;
- 2- the first traded price of initially listed issues;
- 3- the opening price after reopening the market following temporary market closing or prolonged trading suspension;
- 4- the price after resuming trades following trading halt;
- 5- the price at the closing time.

The other prices than those stipulated in Para. (2) above shall be determined through the multiple-price auction.

Priority of bid and offer orders in a single-price auction or multiple-price auction shall be determined in accordance with the following guidelines:

- 1-The lower offers shall have priority over higher offers, and higher bids shall have priority over lower bids; and
- 2-In case of the same price orders, the orders received earlier shall have priority over the orders received later.

Notwithstanding Para. 4, in case of simultaneous orders, the priority of bid and offer orders through single-price auction shall be determined as the following:

- 1- The following orders shall be treated as simultaneous orders:
 - a. Bid orders having its price matched at the upper limit (base price + 5%); and
 - b. Offer orders having its price matched at the lower limit (base price -5%).
- 2- Among the simultaneous orders pursuant to point 1 of Para. 3, the orders for customer accounts shall have priority over the orders for members' own accounts. In this case, the order with larger quantity has priority over the orders with smaller quantities. In case of the same quantity orders, the order received earlier by the trading system of the CSX has priority.
- 3- Quantity of each simultaneous order noted in point 2 of Para. 3 shall be distributed sequentially as shown in the following:
 - a. 100 times the minimum trading unit;
 - b. 500 times the minimum trading unit;
 - c. 1,000 times the minimum trading unit;
 - d. 50% of the residual quantity. In this case, the quantity below the minimum trading unit should be rounded to the minimum trading unit; and
 - e. The total residual quantity.

Article 14 New.-Method and Mechanism of Trade Execution

Trades through single-price auction shall be executed at a specific price (hereinafter referred to as "the matched price") where the aggregated quantity of offer orders and aggregated quantity of bid orders match in accordance with the following priorities:

- 1- First priority: The total quantity of offer orders whose prices are lower than the matched price and the total quantity of bid orders whose prices are higher than the matched price;

2- Second priority: In case of bid and offer orders that are submitted at the matched price, the quantity shall be executed as the following:

- a. Total quantity of either bid or offer order; and
- b. At least 01 (one) trading unit of the other party.

In case where there are two or more matched prices, it shall be any of the following prices:

- 1- The last price or IPO Price in case of trading initially listed issue, in case where there is a price that is equal to the last price or IPO Price; and
- 2- The price that is closest to the last price or IPO Price in case of trading initially listed issue, in case where there is no price that is equal to the last price or IPO Price.

Trades in multiple-price auction shall be executed according to the priority of orders prescribed in Article 13 New (One) Para. (4), and when the highest bid price matches the lowest offer price, the matched price shall be the price of orders received first.

Article 15.-Correction of Transaction Errors

In case where the CSX has made an error in the course of intermediating the securities transaction or where a member has made an error in the course of placing orders, the transaction details in such cases may be corrected.

Transaction errors shall be classified into either errors made by the CSX or errors made by the member.

The CSX shall correct the transaction errors by the following methods:

- 1- In case of transaction errors made by the CSX: the CSX shall make the correction according to the original order information, and have the concerned member took over the concerned securities as an own account transaction. And in case there is a loss resulted from the errors correction, CSX shall compensate equivalent amount of the loss to the concerned member.
- 2- In case of transaction errors made by a member: the errors shall be corrected after the concerned member takes over the concerned errors as own transaction. In this case, the concerned member shall submit to the CSX an application for correcting the transaction errors, together with a statement of causes or a documentary evidence, by 12:00 at noon of the next trading day.

Article 16 New.-Base Price of Initially Listed Issues

The base price for the trading of initially listed issues shall be the first traded price situated between 90 % and 150 % of the IPO price.

In case of no trading until the market closing time, the base price shall be the “best offer” in case where offer price is lower than the IPO price or the “best bid” in case where bid price is higher than the IPO price.

In case where the price as stipulated in Para. (2) is not available, the IPO price shall be deemed the base price.

Chapter III Market Management

Article 17 New.-Publication of Market Data

The CSX shall make public the following market data:

- 1- Opening prices and closing prices; and
- 2- Total trading volume and value.
- 3- Expected price and volume

The CSX may make public the information that is useful for making investment decisions for the protection of investors.

Article 18.-Matters to be Notified to Members

The CSX shall notify each of the following matters to its members:

- 1- The CSX operating rules and the amendment thereof;
- 2- Initially listed issues, additional listing, delisting, and issues suspended from trading;
- 3- Temporary closing of market, suspension of market, and changes in trading hours;
- 4- Admitted Members, members that have withdrawn or been expelled from its membership;
- 5- Members suspended from trading and termination of such suspension;
- 6- Trading details (including the name of issue, trading quantity and value, buy/sell classification, indication of own account transaction or customer account transaction).

The CSX shall maintain the records relating to orders, correction of transaction errors, and trading details for a period of ten (10) years.

Article 19.- Members' Computer Systems

The members shall make their computer systems in compliance with the relevant Laws and regulation, and these rules.

Article 20.- Date of Action for Ex-Entitlement

The date of action for ex-dividends or ex-rights shall be 01 (one) trading day prior to the record date on which a person who exercises the right is determined.

Article 21.- Market Representative

Each member shall appoint at least 01 (one) market representative, who will be trained by the CSX to use the CSX's trading system, and to work on the CSX's trading floor. Each member shall submit an appropriate application to the CSX for registering the market representatives. Only the market representatives shall be allowed to use the member computer system located on the trading floor of the CSX.

Chapter IV Surveillance of Securities Trading

Article 22.-Preventative Actions of the CSX

To maintain a fair trade environment and to protect investors, the CSX may undertake preventative actions against unfair trading practices of the companies listed on the CSX.

Article 23.-Stock Watch

The CSX shall conduct market watch to identify the suspicious issues of abnormal trading.

The identification of suspicious issues of abnormal trading shall be made by the CSX by taking into accounts such matters as trading manners, price fluctuation, securities trading volume, and relationship between the market price and trade, and the details of rumors.

Article 24 New (Two).-Securities Transaction Fees

The members shall pay securities transaction fee in relation to services provided pursuant to these rules.

Calculation method for transaction fee, payers and time of payment are as follows:

1- Rate: The fee for the equity securities trading service shall be levied on the amount of value of trade settled (the amount of fee obtained shall be rounded up to the first decimal place) at the rate of 15/10,000 (twenty five-ten thousandths) or 0.15%.

2- Payers: securities firms which are members of the CSX.

3- Time of Payment: 8:30 am on the settlement day.

For 2014, equity securities transaction fee pursuant to above Para. 2 Point 1 shall be reduced by 50% to 7.5/10,000 (seven point five-ten thousandths) or 0.075%.
